Domestic and Foreign Postage Rates

(Revised at time of going to Press.)

Domestic mail matter includes matter deposited in the mails for local delivery or for transmission from one place to another within the United States, or to, or from, or between the possessions of the U. S. and is divided into four classes.

First Class includes all letters and sealed parcels, except parcels sealed under special permission (with approved label). It also includes any open letter or parcel which contains writing except that there may be included in parcels, a single invoice and still retain 4th class rates.) Typewritten work and carbon copies are first class matter.

First class mail may be registered or sent C. O. D. but cannot be insured.

Letters and other first-class matter as described above, 3c for each ounce or fraction thereof.

Drop Letters mailed for delivery at the office where deposited and where carrier delivery service has not been established, 1c for each ounce or fraction thereof.

Postal Card, Private Mailing or Post Cards within government size limits, written or printed, (get ruling on over and under sizes) 1c each.

SECOND CLASS (transient). Complete copies of newspapers or periodicals, entered at P. O. as second class matter. When mailed by other than publishers, 1c for each two ounces or fraction thereof, regardless of weight or distance, or Parcel Post rate if cheaper.

Second class matter may be registered but cannot be insured or sent C. O. D.

THIRD CLASS includes circulars, and other matter wholly in print, (except second class publications), proof sheets, corrected proof sheets and manuscript accompanying same, merchandise (including farm and factory products) and all other mailable matter not included in the first, or second classes. Weight limit of this class: 8 ounces, 2c for first 2 oz., 1c for each additional ounce. Over 8 ounces the fourth class (Parcel Post) rates apply.

Exception: Books, catalogues, seeds, bulbs, roots, cuttings, scions, and plants (up to 8 oz.) 1½c for 2 oz. or fraction thereof.

Special rates for bulk mailings. See your postmaster.

Third class matter may be registered or insured or sent C. O. D.

For registry rates apply to your postmaster.

Restricted delivery on registered or insured articles, if desired, 20c additional.

Return receipt on registered or insured articles, if desired 5c additional. Return receipt on registered or insured articles, showing address where delivered, 31 cents additional.

FOURTH CLASS (Parcel Post) must weigh in excess of eight ounces: includes books, circulars, and other matter wholly in print, proof sheets, corrected proof sheets and manuscript copy accompanying same, merchandise (including farm and factory products), and all other mailable matter not included in the 1st, 2nd and 3rd classes.

Size limit: 100 inches in length and girth combined. **NOTE:**—Parcels over 84 inches in length and girth combined, and less than 10 lbs. in weight must be prepaid at 10 lb. rate.

Weight limit: 70 lbs.

Parcels containing fourth-class matter (parcel post) are mailable only at post offices, branch post offices and lettered, named or numbered stations.

Parcels must bear the return card of the sender otherwise they will not be accepted for mailing.

Fourth-class matter may be insured or sent C. O. D. up to a maximum of \$200 (per parcel).

Any fraction of a cent resulting in the total postage on a parcel must be counted as a full cent.

Library books, from non-profit organizations, if sent out or returned. First pound 4c, each additional pound 1c when addressed to any point within the first, second, or third zone, or within the state in which mailed. Weight limit 70 pounds.

Rules for Computing Interest

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

TWO PER CENT.—Multiply the principal by the number of days to run, and divide by 180.

TWO AND ONE-HALF PER CENT.—Multiply by number of days, and divide by 144.

THREE PER CENT.—Multiply by number of days, and divide by 120.

THREE AND ONE-HALF PER CENT.—Multiply by number of days and divide by 104.

FOUR PER CENT.—Multiply by number of days, and divide by 90.

FIVE PER CENT.—Multiply by number of days, and divide by 72.

SIX PER CENT.—Multiply by number of days, and divide by 60.

SEVEN PER CENT.—Multiply by number of days and divide by 52

EIGHT PER CENT.—Multiply by number of days, and divide by 45.

NINE PER CENT.—Multiply by number of days, and divide by 40.

TEN PER CENT.—Multiply by number of days, and divide by 36.

TWELVE PER CENT.—Multiply by number of days, and divide by 30.

FIFTEEN PER CENT.—Multiply by number of days, and divide by 24.

Business Laws

Principals are responsible for the acts of their agents.

Contracts made on Sunday cannot be enforced. Written contracts concerning land must be under seal.

Notes do not bear interest unless it is so stated.

If a note is lost or stolen, the maker is not released if the consideration and amount can be proved.

Demand notes are payable when presented, without grace, and bear legal interest after a demand, if not so written.

An endorser on a demand note can be held only for a limited time, variable in different states.

To be negotiable a note must either be made payable to bearer or be properly endorsed by the person to whose order it is made.

If the endorser desires to avoid responsibility, he can endorse "without recourse."

Notes becoming due on Sunday or a legal holiday are, as a rule, payable on the day following.

A note made on Sunday, or one dated ahead of its issue, is void, but it may be dated back.

If a note is altered in any way by the holder it becomes void.

A note made by a minor is void in some States and is voidable on judicial decision in others.

A contract with a minor or a lunatic is void.

If a note is not paid when due, the endorsers, if any, should be legally notified to be holden.

A note obtained by fraud or given by an intoxicated person cannot be collected.

It is a fraud to conceal a fraud.

Signatures with a lead pencil are good in law.

The acts of one partner bind the others.

Each individual in a partnership is responsible for all the debts of the firm except in the case of a special partnership.

The word "limited" in connection with firm names indicates a limitation of responsibility for each member.

An agreement without consideration of value is void.

"Value received" should be written in a note, but it is not necessary. When not written, it is presumed by law or may be shown by proof.

A consideration is not sufficient in law if it is illegal in its nature.

An endorser of a note is exempt from liability if not served with a notice of its dishonor within 24 hours of its non-payment.

If a letter containing notice of protest of non-payment be put into the Post Office, any miscarriage does not affect the party giving notice.

Notice of protest may be sent either to the place of business or residence of the party notified.

A receipt for money is not legally conclusive.

Points of Constitutional Law

Congress must meet at least once a year.

Congress may admit as many new States as desired.

One State cannot undo the act of another.

By the constitution every citizen is guaranteed a speedy trial by jury.

A power which is vested in Congress alone cannot be exercised by a State.

One State must respect the legal decisions and laws of another.

Congress cannot pass a law to punish for a crime already committed.

A person who commits a felony in one State cannot find refuge in another.

Bills for revenue can originate only in the House of Representatives, but the Senate may propose or concur with amendments.

Treaties with foreign powers are made by the President and ratified by the Senate.

The territories each have a delegate to Congress who is allowed the privilege of debate, but not the right to vote.

The Vice-President, who ex-officio presides over the Senate, has no vote in that body except in case of a tie ballot.

If the President holds a bill longer than ten days while Congress is in session it becomes a law without his signature.

An act of Congress cannot become a law over the President's veto except on a two-thirds vote of both Houses.

The House of Representatives may impeach the President for any crime, but the Senate has the sole power to try all impeachments.

An officer of the United States Government is not permitted to accept any title of nobility, order of honor, except with the permission of Congress.

Amendments to the Constitution of the United States require a two-thirds vote of each House of Congress, and must be ratified by at least three-fourths of the States.

The President of the United States must be at least 35 years of age; a Senator, 30; a Congressman, 25. The President must have been a resident within the United States fourteen years.

A naturalized citizen is not eligible to the office of President of the United States. A male child born in a foreign land to American parents has an equal chance to become the President with one born on American soil.

The United States shall guarantee to every State a republican form of government, and shall protect each of them against invasion, and on application of the Legislature or of the Executive (when the Legislature cannot be convened) against domestic trouble.

Good Rules for Business Men

Don't worry; don't overbuy; don't go security. Keep your vitality up; keep insured; keep sober; keep cool.

Stick to chosen pursuits, but not to chosen methods.

Be content with small beginnings and develop them.

Be wary of dealing with unsuccessful men.

Be cautious, but when a bargain is made stick to it.

Keep down expenses, but don't be stingy.

Make friends, but not favorites.

Don't take new risks to retrieve old losses.

Stop a bad account at once.

Make plans ahead, but don't make them in cast iron.

Don't tell what you are going to do until you have done it.

SW. Storm NW. Storm Hurricane or Whole Gale

NE. Storm SE. Storm SW. Storm NW. Storm Hurricane or Whole Gale

EXPLANATION OF SMALL CRAFT, STORM, AND HURRICANE WARNINGS

The Small Craft Warning—A red pennant indicates that moderately strong winds that will interfere with the safe operation of small craft are expected.

The Northeast Storm Warning—A red pennant *above* a square red flag with black center displayed by day, or two red lanterns, one above the other, displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *northeast*.

The Southeast Storm Warning—A red pennant *below* a square red flag with black center displayed by day, or one red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *southeast*.

The Southwest Storm Warning—A white pennant *below* a square red flag with black center displayed by day, or a white lantern *below* a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *southwest*.

The Northwest Storm Warning—A white pennant *above* a square red flag with black center displayed by day, or a white lantern *above* a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the *northwest*.

Hurricane, or Whole Gale Warning—Two square flags, red with black centers, one above the other, displayed by day, or two red lanterns, with a white lantern between, displayed by night, indicates the approach of a tropical hurricane, or one of the extremely severe and dangerous storms which occasionally occur.

Weather Wisdom

Sunset Colors: A gray, lowering sunset, or one where the sky is green or yellowish-green, indicates rain. A red sunrise with clouds lowering later in the morning, also indicates rain.

Sky Color: A deep blue color of the sky, even when seen through clouds, indicates fair weather; a glowing whiteness an approaching storm.

Visibility: Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars indicate rain.

Fogs: Fogs indicate settled weather. A morning fog usually breaks away before noon.

Frost: The first frost and the last frost are usually preceded by a temperature very much above the mean.

Halo (Sun Dogs): By halo we mean the large circles, or part of circles, about the sun or moon. A halo occurring after fine weather indicates a storm.

Corona: By this term we mean the small colored circles frequently seen around the sun or moon. A corona growing smaller indicates rain; growing larger, fair weather.

Rainbows: A morning rainbow is regarded as a sign of rain; an evening rainbow of fair weather.

Help in Case of Accident

KEEP COOL—SEND FOR A PHYSICIAN
WOUNDS—Remove patient to a quiet, airy place. Have hot and cold water, several basins, clean towels, cloth and soap. Apply antiseptic treatment as follows:

Thoroughly cleanse your own hands and nails; then cleanse the wounds with some antiseptic. The most easily procured is salt and water. Put a handful of salt in a quart of water and use freely. After the wound is cleansed, it must then be protected from new germs by some covering made germ free by baking, boiling, or ironing. After the salt solution has been carefully used, apply strips of gauze soaked in warm water which has been boiled. This will leave the wound in good condition.

If a more active antiseptic than salt, such as Carbolic Acid (1 per cent) or Bichloride of Mercury (1 part to 2000 of water), is available, it should be used.

ARTIFICIAL RESPIRATION—When the patient is removed from the water, gas, smoke, or electric contact, get to work at once with your own hands.

Lay the patient on his stomach. Extend one arm directly over head. Bend the other arm at elbow, and rest patient's cheek on hand, to keep the nose and mouth off the ground and free for breathing.

Kneel facing forward, and straddling patient's legs just above the knees. Place palms of hands on each side of back, just above the belt line, and about four inches apart, thumbs and fingers together, the little fingers over and following the line of the lowest ribs, and the tips of fingers just out of sight.

With arms straight lean gradually forward, pressing downward and forward and counting slowly, one, two, three. Snap your hands sideways, off patient's back. Swing your body back, counting slowly, four, five. Rest. Straighten arms and repeat pressure.

Three movements straight arm pressure (shoulder behind hands to exert forward pressure), quick release and swing back. Keep up work steadily until breathing begins and continues naturally.

When helpers arrive put them to work; send for physician; clean patient's mouth of obstructions; stimulate reflexes; loosen tight clothing; rub legs and body toward heart; supply clothing and other heated articles and relieve operator when tired. Place aromatic spirits of ammonia near patient's nose at frequent intervals. When patient begins to breathe naturally, and can swallow, give a teaspoonful of aromatic spirits ammonia in half glass of water, or some hot coffee or tea.

Don't get discouraged. Stick to it for two even three hours if necessary.

IN CASE OF POISON

First. Send for a physician.

Second. Empty the stomach by an emetic—a teaspoonful of mustard or two teaspoonfuls of common salt in tepid water; teaspoonful of alum in water. Tickle the throat with a feather or finger. Apply antidotes as follows:

1. Emetic. If patient is drowsy, give cold coffee; keep awake and moving.

2. Emetic. Warm extremities; give large doses of magnesia; raw eggs; lime water; milk; flour and water.

3. White of eggs, milk, flour and water; give largely for ten minutes, then give emetic and follow by mild stimulants.

4. Mustard emetic followed by Epsom salt.

5. Emetic. Give warm water to relieve vomiting; tea to tablespoonful baking powder, saleratus, chalk, lime or magnesia, followed by milk and white of egg.

6. Emetic. Baking powder, etc., as in No. 5, followed by linseed tea or slippery elm tea.

7. Emetic. Followed by brandy or by teaspoonful ammonia in pint of water.

8. Large quantities of water followed by large doses of magnesia or lime.

9. Drink diluted vinegar or lemon juice, follow with tablespoonful castor oil, cream, sweet oil or linseed oil; then with teaspoonful doses an hour apart for three hours.

10. Fresh air, inhalation of ammonia; warm extremities; artificial breathing, as in drowning.

PRIEST 69 YEARS DIES

Rev. D. O'Mahoney Was Oldest
Member of Augustinian Order

Special to THE NEW YORK TIMES.

PHILADELPHIA, March 2—The Rev. Daniel J. O'Mahoney, oldest priest of the Augustinian Order, died today at the age of 94.

Born in New York, Father O'Mahoney entered the novitiate at Villanova College in 1877 and was ordained in 1881. During his priesthood he served as rector of old St. Augustine's Church in Philadelphia and of St. Augustine's Church in Andover, Mass.

Father O'Mahoney also had been curate of Our Mother of Consolation Church in Chestnut Hill, St. Nicholas' Church in Atlantic City, and the Church of the Immaculate Conception in Hoosick Falls, N. Y.

He spent several years in the Philippine Islands and as a member of the Augustinian Mission Band at St. Mary's Church in Lawrence, Mass. Recently he was stationed at Villanova College.

Father O'Mahoney died at 6.15 a.m.
at Our Lady Help of Christians Convalescent
Home in Philadelphia. He had been at
Villanova since he was 90. He was
ordained June 11, 1881 --- my birthday but
5 years before my birth. He was born 5.27.1856

With his death --- the last person who I
remember as a child is gone --- the Brassill
aunts, the O'Connor aunts, my parents -
- practically all who cared for whom I
cared.

Nell and I are all that are left of the
claw ---

He outlived Mary Sweeney --- which
might have pained her.

Felt like a heel --- no Xmas card ---
Since 1934 I simply couldn't feel the
same --- although he rallied round
in Sue's last illness --- but something
died - I think in 1934.

For more than ten years he gave himself unceasingly and unselfishly to the work of the Charitable Bureau. They were busy years during which the Bureau made historic advances.

Charitable Bureau have since become more scientific, perhaps too technical, as social service and social science have become more organized, more and more involved. In the period of which we speak a Diocesan Charitable Bureau still reflected the personality of the priest in charge of it more than is possible in our own hyperorganized days. Organization now dominates personality: in those days, personality could still dominate organization.

He intended to retaliate by cutting off Chuck. & Mrs - forgot to send it anyway. This is his explanation of Margaret's illness. He quoted Tarlakoff at length to prove the emotional or mental plant - etc (and Margaret liked Taitakoff!)
